

# Superior Whole Body Detoxification

## Medi-Soak

Gentle, Detoxifying, Electrolyte Foot or Body Soak

**Gentle Detoxification  
For Superior Health**

**Replacing Electrolytes.** The Medi-Soak provides extraordinary, body-wide replacement and restoration of key natural-source electrolytes and other minerals, often compromised by medical drugs, a mineral-deficient diet, extreme stress, chemical exposure, lack of sleep, chronic illness and many other factors.

The Medi-Soak is typically used as a foot bath, for approximately 20 minutes in warm water, which can gently detoxify the entire body via its maximum cation exchange capacity from its multiple, highly ionized natural sea mineral sources.

When the feet are immersed in the Medi-Soak solution, a remarkable ion exchange occurs. Nutritive minerals are taken up through the many sensitive acupressure areas of the feet into systemic circulation and simultaneously, there is a gentle exchange of toxic compounds which are liberated into the water from the body.

The Medi-Soak can be used effectively and without concern for side effects, even for the chronically compromised and elderly – all the way to the competition athlete. To feel immediately refreshed after a long day, many people enjoy the soothing effect of the Medi-Soak foot bath. If preferred, the Medi-Soak may be used as a whole body bath as well with outstanding success.

## Medi-Soak

### Key Features

- Detoxifying foot soaks with four key, world-class sources of rejuvenating, highly piezo-electrically active sea crystals: raw, unheated crystalline sea crystals from ancient prehistoric land deposits, Hawaii, the Mediterranean and Dead Seas, coupled with unheated, pristine quality sea vegetation
- Maximum cation exchange of bioaccumulated toxins at targeted sites to optimize the rapid return to ideal cellular resonance
- Assists in detoxification of bioaccumulated chemicals and radiation exposure in the ground substance of the body
- 100% premier quality ingredients: *No oxidized, heated, toxic minerals or salts; no heated, irradiated or pesticided herbs*

**Breezing Through a Detox.** The Medi-Soak can be a significant help for those suffering from detox symptoms. In fact, many practitioners often recommend a Medi-Soak foot bath when a person is experiencing uncomfortable detox symptoms – such as mood swings, mental foginess, physical pain anywhere in the body as well as many other detox complaints.

The Medi-Soak foot bath can be a real ace to help rapidly clear these distressing detox symptoms and may allow even an elderly person to regain a better sense of well being and balance in a relatively short time.

**For Use with the Medi-Body Pack.** The Medi-Soak is also a critical component of the revolutionary Medi-Body Pack system (i.e. the use of ancient “mud pack” therapy” using moor mud, shilajit, volcanic clays and other synergists) to permanently re-establish the healthy bio-energetic flow through previously traumatized areas of the body, such as scar tissue which has been shown by research to have the capacity to send abnormal reflex signals to other parts of the body to disrupt its physiology.

(Please request info on the Medi-Body Pack.)

## Preserving the Piezo-Electrical Properties

In order to preserve the maximum piezo-electrical power of the special detoxifying salts, they have been crushed rather than ground in a grinder. Thus, some of the salt crystals may not dissolve completely in your bath water. However, the photoluminescent effect generated from the whole salt crystals is maximally operative in the water. This allows the Medi-Soak to deliver far superior health benefits.

## Medi-Soak: *Ingredients*

Premier Quality, Quantum-State Detoxification Blend: Solar-Dried, Prehistoric Sea Minerals, Hawaiian Alaea Clay and Sea Minerals, Solar-Dried Dead Sea Crystalline Minerals, Unheated Mediterranean Sea Minerals, Unheated Pacific Kelp (whole) (*Ascophyllum nodosum*), Unheated North Atlantic Kelp (whole) (*Laminaria digitata*), Grade 10 Indian Clove (bud) (*Syzygium arom.*)

Contents: Approximately 3 1/2 cups per container

### Recommended Use

**Foot Bath:** Adults or children (age 1 and up): place 1 cup of Medi-Soak in a plastic (nonmetallic) container wide enough to place your feet. Add 8 cups of warm water to the container. (This 8:1 ratio of water to Medi-Soak ingredients allows the best ionic exchange of toxins). After adding the water to the Medi-Soak ingredients, use your hand to briefly swish the ingredients around in the water. Although some of the crystals will dissolve, it is not necessary for all of them to dissolve. Some whole crystals help to create a strong piezo-electric effect in the water during the foot bath for greater release of toxins. Soak feet for 10 to 20 minutes.

Then towel-dry feet. Discard bath water down the drain (do not re-use). For best results, after the bath, spend 5 to 10 minutes outside (or more) to receive beneficial solar radiation.

**Whole Body Bath.** Adults or children: add 2 cups of Medi-Soak to your bath water. Swish the contents around in the water to dissolve some of the crystals. Soak in bath for 10 to 20 minutes. Towel-dry your body. Drain bath water through tub drain. For best results, after the bath, spend 5 to 10 minutes outside (or more) to receive beneficial solar radiation.

**Other Body Areas:** You may repeat the procedure above to detoxify other body areas, such as the hands, the elbows, etc.

## Experience the Premier Quality difference

### Complementary Products

#### Medi-Body Pack™

Detoxifying Clay/Peat/Herbal Packs

For Application to Local Areas of the Body

- Detoxifying body packs with world-class source of clay, peat magma, shilajit and cleansing botanicals; key detox agents used for centuries in many cultures
- Promotes healthy circulation and immune system; helps ease muscle tension; helps rejuvenate cells
- Helps rapidly clear toxic bioaccumulation at targeted sites to return

to ideal cellular resonance

- Initiates the "thermal effect"; an increased, deep intrinsic cellular cleansing effect
- 100% Quantum Quality ingredients: *No oxidized peat, no weak or toxic clays, no irradiated/pesticided herbs*

#### Quantum Castor Oil Packs

World's Finest Quality Castor Oil From India

- ❖ *The Premier Healing Secret of the Ancients*
- ❖ *Extra Virgin, Cold-Pressed, Not Solvent-Extracted, Hexane-Free*

- Castor oil is an ancient remedy called the "hand of Christ", used for thousands of years by many cultures, especially for organ detoxification and skin health\*

- Rich in ricinoleic acid, a unique, potent, immune-boosting fatty acid\*
- Famous skin-soothing properties for clear, blemish-free skin; wrinkle reduction; enhanced skin beauty\*
- **The Castor Oil Pack:** an external cloth pack with castor oil used to promote proper bowel eliminations, good digestion, regular menstrual cycles, increased lymphatic circulation, and better assimilation of nutrients\*

#### Medi-Dental Pack

Detoxifying Dental Poultices (*100% pure powder*)

- Premium-grade organoclay and zeolite minerals for maximum cation exchange of bioaccumulated toxins
- Rapid, deep-seated detoxification of targeted dental and associated body areas
- External clay packs used on specific tooth, gum or jaw areas for deep-seated detoxification, especially heavy metals and associated dental toxins

#### Premier Pain Relief Cream

For Painful Joints and Muscles

- Extraordinary, rapid pain relief for muscles and joints (especially after exercise)
- Fast-acting, superior absorption of active ingredients
- Natural herbal cream base with charged particle technology for high-spin quantum resonance
- No toxic chemicals (*No paraben, propylene glycol, peg-8 stearate, cetyl alcohol, polysorbate 60, carbomer 940, etc.*)

#### Premier Ozonated Gel

The Perfect Ozone Delivery System For Super Skin Health

- Extra virgin, European olive oil, supersaturated with medical-grade oxygen and ozone (so no undesirable oxides of nitrogen are present as seen when ozone is made from ambient air)

- Immune-specific, natural salve for all types of skin conditions, including severe skin concerns
- Excellent for itching, especially from insect bites, etc.
- Also great as a superior, natural daily deodorant
- 100% natural ingredients: no aluminum, propylene glycol or other toxic ingredients

For use as a super deodorant: Work a small dab under each arm pit daily for the best protection we've ever found; one application can last for days, even in stubborn perspiration cases.

#### Premier DNA Repair Cream

The Ultimate Super-Hydrating Protector

- The ultimate repair cream with highly ionized super nutrients without toxic preservatives
- Quantum-state, super hydrating cream for skin beauty and repair
- Unlike typical skin creams, significant amounts of key, skin-enhancing Super Nutrients are present
- Contains the rare and expensive Italian hyaluronic acid, quantum-state whole bovine colostrum, nanized green tea extract, nanized propolis extract, nanized DHLA, carnosine, quercetin, tocotrienol complex, real vitamin E complex, genuine French lavender oil and more
- The combined synergism of these broad-spectrum Super Nutrients yields spectacular nourishment and restores high cellular resonance, the only path to real beauty - simply not possible if toxic tagalong ingredients are present
- Absolutely no toxic chemicals  
*No paraben, propylene glycol, polysorbate, etc.*
- Simply the most revolutionary Super Nutrient formula devised
